

Virtual Connect

Automated on-demand interconnection to
Connected Data Communities in EMEA

With enterprises going through a digital transformation journey, there is a growing demand for colocation, cloud and network solutions combined in one single platform.

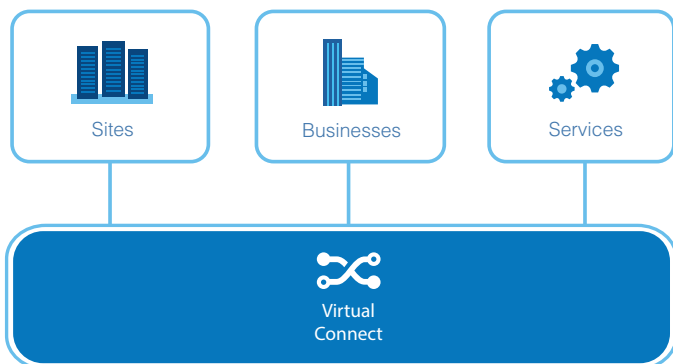

Empowered by PlatformDIGITAL® and Cloud Connect platform, Virtual Connect offers access through Layer-2 virtual cross-connections from any market in Europe, enabled by a high capacity and redundant managed SDN backbone.

With a single Cloud Access Port, you can virtually interconnect markets, businesses and services fast and easy, optimising the use the bandwidth allocated, thus reducing operational costs and promoting scalability.

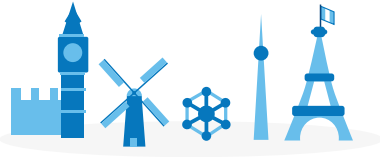

The service is provisioned fully on-demand and automated, with integrated billing and management through Interxion Customer Portal and Integration APIs. Interconnections are deployed and active within minutes, all secured by Interxion's Cloud Connect Platform market leading SLA.

Key benefits

- **Sites and services at reach**
From any site, reach other cities, business partners and services
- **Business interconnections**
Virtually connect to other businesses in different markets
- **Flexible bandwidth**
Available from 100Mbps to 10Gbps services
- **Transparent contract**
30-day contract terms as standard
- **Fast provisioning**
Order and deploy services in minutes
- **99.99% Service availability**
Leverage Cloud Connect's carrier grade infrastructure and highly diverse backbone
- **GUI and API**
Managed through either Connect Portal or Interconnection API

Virtual Connect offers multiple solutions

InterCity

Deliver on-demand virtual network infrastructure between [Cloud Access Ports](#) in multiple Cloud Connect enabled markets.

Fully configurable Layer-2 service with guaranteed SLA, supporting dot1q or Q-n-Q VLAN management.

InterCustomer

Businesses in Interxion can easily connect to each other through Virtual Connect.

No more lengthy paperwork and long lead times for physical connections. By exchanging a **Service Key**, a business partner will allow your business network present in any Interxion Datacenter to connect within minutes.

InterService

With Virtual Connect InterService, you can access a wide range of pre-defined Service Partners available on the platform.

Access Connected Data Communities virtually from any site location and fully on-demand.

With PlatformDIGITAL®, your interconnection needs are globally supported to access market leading Cloud Providers, Internet Exchanges and Connected Data Communities in key centres of data exchange located in 24 countries around the globe. Find out more on interxion.com/platform-digital

How to order Virtual Connect?

Virtual Connect can be ordered quickly and easily through Interxion's Connect Portal or Interconnection API.

Ensure your cabinet has available MMR Precabbling, if not order through the Customer Portal.

Order and deploy a new Cloud Access Port, or utilize an existing one with available capacity.

Add a new Virtual Connect Service via Connect Portal or Interconnection API following the configuration steps.

Your service order will then be submitted and approved by its counterpart, if applicable. Once approved, the service will be deployed and ready for use.

About Interxion: A Digital Realty Company

Interxion: A Digital Realty Company, is a leading provider of carrier- and cloud-neutral data centre services across EMEA. With more than 700 connectivity providers in 106 data centres across 13 European countries, Interxion provides communities of connectivity, cloud, and content hubs. As part of Digital Realty, customers now have access to 47 metros across 6 continents. For more information, please visit interxion.com or follow us on LinkedIn and Twitter.
